

Custom Rubber Dust Covers

A Custom Rubber Dust Covers is a covering to protect a piece of equipment. Dust covers are usually made of plastic. Rubber is also used to make dust covers.

1. Product Introduction of the Custom Rubber Dust Covers

A dust cover is a covering to protect a piece of equipment. Dust covers are usually made of plastic. Rubber is also used to make dust covers.

Types of Rubber used in dust covers:

Silicone Rubber (SiR)

Nitrile Rubber (NBR)

Styrene Butadiene Rubber

Ethylene Propylene Diene Monomer (EPM, EPDM)

Advantage of Dust Covers:

Custom Rubber Dust Covers are used for variety of purposes:

They act as garment cover. They can be kept inside storage cabinet as protective garment covers.

They are used as computer covers. Dust Covers provide the protection that is required for your valuable computer and irreplaceable equipment.

Widely used as keyboard covers, CPU covers.

The bigger size dust cover can be used as vehicle cover. The dust cover for cars and vehicles will keep your car free from the natural damage caused by rain, bird droppings, dampness and direct ultraviolet light.

Dust covers can be used in open steel shelving.

Xiamen Liangju Rubber Technology Co., Ltd.

There are rubber dust covers for fill nipples on high presser tank.

There are custom made rubber dust covers used in a variety of applications, for all types of rigorous environments and specialty protection and sealing applications.

2. Product Parameter (Specification)

Product Name:	Custom Rubber Dust Covers
Material:	NBR, HNBR, EPDM, SILICONE, VITON, FLS, FFPM, PTFE
Size:	Any size, Customized/standard and nonstandard
Color:	Black
Packing:	plastic bag&carton box or according to your requirements
Sample time:	20-25days

Application:	Automotive
Warranty:	2years

3. our service.

1. Inquiry about our products can be replied within 12 hours.
2. Professional & experienced staff help you solve problems of silicone and rubber products.
3. Accept customized shape, material, hardness, temperature, size, color, logo and packing.
4. Mode of production: Compression or injection or extrusion.
5. We have a comprehensive range of in-house manufacturing facilities, allowing us to provide fast and effective manufacturing.

4. Quality Control and Certifications

We serve our customers with high quality Customized Shape Rubber Gaskets by strictly follow ISO 9001:2015 and IATF 16949.

Dimensional Inspection

5. Packing, Payment and Shipping

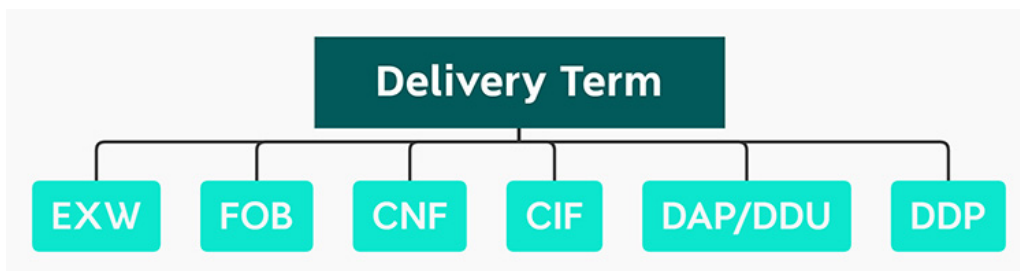

Our packing for all the Customized Shape Rubber Gaskets, strong enough to ensure its safety throughout the whole delivery no matter domestic or oversea shipping. Customized Packing/LOGO/Labeling are Available.

ISO 9001 : 2015

IATF 16949 : 2016

6. FAQ

1. Do you supply material?

Yes, we have our own mixing rubber factory and can supply you with Synthetic Rubbers to fit your applications.

Xiamen Liangju Rubber Technology Co., Ltd.

Tel: +86-592-7255151

E-mail: Dylan@tec-rubber.com

2. If OEM is acceptable?

Yes, Samples are Free of charge

3. What Is EPDM Rubber ?

EPDM is a synthetic rubber polymer and is made from ethylene and propylene monomers. This rubber was developed in the early 1960's and used to produce variety of products like radiator and steam hoses, freezer gaskets, tires, roofing membranes and aircraft seals to name only a few.

4. Why is rubber used to produce industrial products?

Rubber has certain unique properties which makes it suitable to produce rubber products which are widely used in various industrial applications. Rubber is water repellent. It is resistant to alkalies and weak acids. Rubber has elasticity, toughness, impermeability, adhesiveness, and electrical resistance. These properties make rubber useful as an adhesive, a coating composition, a fiber, a molding compound, as well as an electrical insulator.

5. Which type of rubber is best for my application?

There are a range of natural and synthetic rubbers with different properties, making some more suitable than others for particular applications—the key of course is choosing the most appropriate one! For specific requirements, please ask our rubber products specialists for guidance.
